

› WHAT MAKES MCW UNIQUE

At MCW, we have a long history of providing high-quality, evidence-based continuing medical education (CME) for healthcare professionals. Our CME programs are designed to meet the needs of busy healthcare professionals and provide them with the knowledge and skills they need to stay current in their field. Our CME programs are accredited by the American Board of Medical Specialties (ABMS) and the American College of Physicians (ACP). We offer a variety of CME programs, including live webinars, on-demand webinars, and self-paced courses. Our CME programs are designed to be interactive and engaging, and we provide a variety of learning activities, including case studies, quizzes, and group discussions. We also offer a variety of CME programs for different specialties, including cardiology, oncology, and pediatrics. Our CME programs are designed to be flexible and convenient, and we offer a variety of options for scheduling and location. We also offer a variety of CME programs for different levels of healthcare professionals, including residents, fellows, and board-certified physicians.
